

## How to find your UUID number

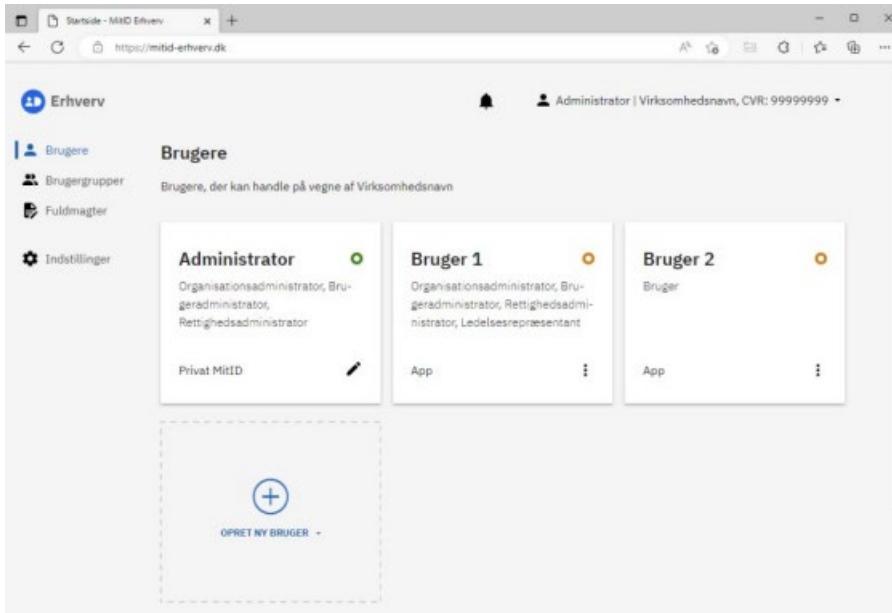

Once you have been set up via your company, you—or the employee in your organization who has access to creating MitID Erhverv users—can find your UUID number, which Velliv needs in order to create you on the Pensions Portal.

### Find your UUID number

1. Open **mitid-erhverv.dk**
2. Click “**Menu**” and select “**Log in to MitID Erhverv**”

Here, the administrator (Adm) can select the employee whose UUID number needs to be found.
